MESSAGE

I am delighted to announce the first-of-its-kind mobility show, the Bharat Mobility Global Expo 2024, from the 1st to 3rd of February 2024. This industry led event supported by Ministry of Commerce, is set to be a comprehensive three-day event dedicated to the entire mobility value chain.

It is first of its kind mega show and would be a pioneering endeavour, aiming to cover every aspect of the Automobile Industry's mobility value chain under one roof and will showcase the latest advancements in electric vehicles (EVs), automobiles, urban mobility solutions, cutting-edge automotive technologies, and more. This is the largest ever event in this space in terms of exhibitors, area, participation of foreign and domestic buyers, with active participation of State Governments, 11 industry associations and 9 ministries of the Government of India.

With more than 800 exhibitors from 50+ countries across the mobility ecosystem, the scale of this event underscores its significance in shaping the future of mobility on a global scale. This event stands as a visionary curtain-raiser for tomorrow's mobility landscape. The Bharat Mobility Global Expo 2024 embodies a futuristic vision where mobility seamlessly integrates with technology, sustainability, and inclusivity.

The Bharat Mobility Global Expo 2024 is a unique platform that unlocks a multitude of opportunities for the world and India to co-create and transform the future of the automotive industry. The sky is the limit as we envision a future where mobility transforms lives, enhances accessibility, and creates smarter and greener cities, and achieves Net Zero commitments by 2070.

Hon'ble Prime Minister of India, Shri Narendra Modi ji has graciously accepted to give a special address at the event on 2nd February 2024. This underscores the 'whole of Government approach' of our Hon'ble Prime Minister, whereby all stakeholders have come together at one platform to harness the potential of this critical sector and further enhance its contribution to our economy.

I extend my best wishes for fruitful deliberations, productive partnerships, and the continued success of the Bharat Mobility Global Expo 2024. In addition, I also express my utmost appreciation to all those involved in the organization and participation of the expo.

Piyush Goyal

Message from Chairman of the Advisory Committee of Bharat Mobility Global Expo 2024 and EEPC India

Bharat Mobility Global Expo 2024
1st – 3rd February 2024

EEPC India is delighted to be part of Bharat Mobility Global Expo 2024, which is being held from 1st to 3rd of February 2024 at Bharat Mandapam, Pragati Maidan, New Delhi. A truly visionary confluence by the government, with the esteemed support of the Ministry of Commerce and Industry and coordinated by EEPC India.

This expo is a pioneering event that transcends the boundaries of traditional exhibitions, offering a profound glimpse into the future of mobility.

The Bharat Mobility Global Expo 2024 is distinguished by unprecedented collaboration among government, associations, and industry leaders.

This expo is not merely an exhibition; it is a catalyst for transformation. Together, we unlock a multitude of opportunities to co-create the future of the automotive industry. Join us as we pave the way for tomorrow's mobility, today.

Arun Kumar Garodia

Mr. Arun Kumar Garodia
Chairman of the Advisory Committee
of Bharat Mobility Global Expo 2024
and EEPC India

Message

Mr R Dinesh
President,
Confederation of Indian Industry (CII)
and
Chairman, TVS Supply Chain Solutions Ltd

Mobility is a strategic sector as it plays a significant role, both in Cost of Doing Business and as a catalyst for growth. It covers goods (logistics) and people mobility as well.

As we look at the future of Mobility, there are various innovations taking place to make it sustainable and reduce inefficiencies and travel time in itself. In India, with a significant focus on infrastructure, it is presenting a unique opportunity to leapfrog into the future.

With this backdrop, Bharat Mobility Global Expo provides an opportunity to bring out the true potential in India which creates a perfect platform for multi-stakeholder engagements, exchange of new ideas and forging of new partnerships, all of which will help implement a holistic and inclusive roadmap for the mobility sector.

I am sure this event will herald an even more integrated growth for the mobility sector, and I wish the event a great success.

Message from President, SIAM

Bharat Mobility Global Expo 2024
1st – 3rd February 2024

SIAM Members are thrilled to be a part of the Bharat Mobility Global Expo 2024 which truly brings together all the stakeholders of the Indian mobility eco system. This integration is critical in the present times as mobility is in the cusp of transformation through Connected, Electrified, Shared and Automated concepts. The cross linkages of the industries, especially of IT with Auto would create a robust modern Indian mobility landscape, as Indian Auto Industry aspires to lead the world in the Amrit Kaal.

Vinod Aggarwal
President, SIAM

Message

I am delighted that the Bharat Mobility Global Expo 2024 with the theme 'Beyond Boundaries – Co-creating Future Automotive Value Chain' has emerged as a true representation of the transformation - from automotive to mobility, that our industry is currently going through. Not only that, the event will also be an apt showcase to demonstrate the progress of our industry in the last few years, due to the benign and conducive policies of our government.

I am happy to mention that we will have over 600 auto component manufacturers, international and domestic, displaying their entire range of products, technologies and services, from supplies to OEMs to the aftermarket at the event. In fact, the ACMA Automechanika New Delhi, our flagship aftermarket expo, has been subsumed into Bharat Mobility 2024 thus giving it an altogether new dimension.

The Auto Components display will be spread over 30,000 square meters through the ground floors of Halls 02 to Hall 05, as also in Hall 11 and 12A. We also have significant international participation with Country Pavilions from Japan, Germany, Korea, Taiwan and Thailand.

I now eagerly look forward to welcoming all of you to Bharat Mobility Global Expo 2024, especially the auto components pavilions, for experiencing the excitement and the dynamics of the evolving mobility ecosystem in India.

Shradha Suri Marwah
President
Automotive Components Manufacturers Association

Dear Friends,

I extend a warm welcome to the Bharat Mobility Expo on behalf of the India Energy Storage Alliance (IESA).

India is at the forefront of a transformative mobility revolution, and this expo serves as a testament to the nation's commitment to sustainable transportation. The expo will showcase the diversity and innovation propelling emobility landscape. Central to this revolution is India's plans for battery technologies. We are driving innovations that not only power EVs but also contribute to energy transition.

IESA with 200+ members across the ecosystem has set vision to make India a global hub for R&D, manufacturing, and adoption of advanced energy storage, e-mobility, and green hydrogen technologies. The alliance has been at the forefront of efforts seminal in shaping an enabling policy framework for the adoption of emerging technologies in India.

Let us explore the vast opportunities that lie within India's emobility and advanced battery sector. The Bharat Mobility Expo is a confluence of ideas, innovations, and investments, fostering a collaborative ecosystem that will drive sustainable development.

Let's connect, innovate, and transform the future of mobility together!

Yours sincerely,

RSWalawalkar

Dr. Rahul Walawalkar
President, IESA and CES India

MESSAGE

Bharat Mobility is poised to send out a clear message that together we can pave the way for a future where mobility doesn't just signify movement but a catalyst for progress and prosperity of the nation. As the fast-growing emerging economy in the world, India needed a platform for all stakeholders in the automotive sector to be at one platform which this Expo has provided at the right time and opportunity.

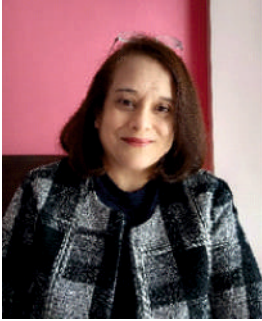

Automotive Tyre Manufacturers' Association (ATMA) is privileged to be a part of the dialogue between the Government and Industry Associations since the time of conceptualization of Bharat Mobility Expo.

This global Expo will showcase India's capabilities and capacities in the automotive eco system across the world.

As an integral part of India's growth story, the Indian Tyre Industry is investing in cutting-edge technologies, sustainable processes and R&D to ensure that tyres not only aid in the efficiency of the vehicles but also help in the reduction of overall carbon footprint contributing to a cleaner, greener environment.

Inevitable India's ascent as a transformative powerhouse in the global automotive and mobility sector is characterized not just by its manufacturing might and market size, but more so by its pioneering advancements in technology. 'Bharat on Wheels' embodies this journey, showcasing the young digital talent involved in developing next-gen automotive technologies, such as connected, autonomous, shared, electric, safety & security, ADAS, infotainment & entertainment, and sustainability. India has emerged as the major Technology and Innovation hub for powering automotive & mobility with software, enabling the concept of Software on Wheels. We are indeed privileged to be a key partner in the Bharat Mobility Global Expo 2024, showcasing India's innovative technology that is shaping the future of mobility.

WELCOME MESSAGE

The Indian Construction Equipment Manufacturers' Association (ICEMA) is one of the ten industry associations hosting Bharat Mobility Global Expo 2024, the first of its kind mobility event showcasing the exponential growth of India's mobility sector focusing on e-mobility and alternative fuels. Supported by the Ministry of Commerce, Government of India, the event is aligned with the government's commitment to significantly reducing dependence on fossil fuels by 2035 and complete carbon neutrality by 2070. The ICEMA pavilion at Bharat Mobility Global Expo 2024 displays the latest, state-of-the-art offerings from the Indian CE industry. smart machines operating on alternative/ hybrid fuels, embedded with cutting edge technologies and advanced safety features.

Yours sincerely,

V. Vivekanand
President, ICEMA &
Managing Director
Caterpillar India Pvt. Ltd

MESSAGE

I look forward to welcoming all exhibitors, trade visitors, delegates and partners from all over India to Bharat Mobility Global Expo 2024 – India's international Mega Show at Bharat Mandapam, Pragati Maidan, New Delhi.

Bharat Mobility Global Expo 2024 has been Mega Event where leading Auto makers, Associated organizations in the entire mobility value chain are participating in the show. This mega event is first of its kind, enabling the exhibitors to showcase their contribution towards Economic Develop of Country.

This is a matter of pride for Indian Steel Association and its members to be a supporting Association along with other participating Associations for this event.

We are grateful to Shri Narinder Modi, Honourable Prime Minister of India for his vision to showcase 'Bharat' Atmanirbharta in Mobility Value Chain in this Bharat Mobility Global Expo.

Shri Piyush Goyal Hon'ble Minister of Commerce and Industry has guided us as to how we make this an International Mega Expo. All other connected Ministries are also playing their pivotal role in the Mega Event.

I wish Bharat Mobility Global Expo 2024 a grand success and I am confident it will set a bench mark for all time to come.

Dear Esteemed Delegates,

Welcome to the Bharat Mobility Global Expo 2024, a groundbreaking showcase of India's prowess in mobility innovation. As the CEO of Invest India, I am thrilled to extend a warm welcome to each of you. This mega event brings together visionaries, industry leaders, and innovators to explore the future of mobility. India's commitment to sustainable, efficient, and connected transportation solutions is on display here. I encourage you to visit the India Pavilion to experience the various Ease of Doing Business Initiatives offered by India. Together, let's drive the future of mobility towards a sustainable and connected world.

Nivruti Rai (GPN: 75, 2024 1620 GMT+5.5)

Dear Friends,

The Bharat Mobility Global Expo 2024, India's first such event, unites the entire mobility ecosystem. As President of the Material Recycling Association of India, I'm honoured to represent the role of Recycling in the mobility related circularity & sustainability ecosystem. Recycling isn't just environmental responsibility, it's an economic engine. By reducing resource consumption and fostering innovation, we unlock India's potential. This expo is a platform for global collaboration towards a resource-efficient and sustainable mobility future. Let's explore, learn, network, and celebrate the possibilities!

Thank you and best wishes.

Isuzu Motors India inaugurated a new state of the art manufacturing plant in Sri City, Andhra Pradesh in April 2016. The facility which spread over 107 acres is a testimony to Isuzu's commitment to make in India. Currently the plant rolls out the new range of Isuzu D-MAX pick-ups and Isuzu mu-X SUV. This plant also brings to India Isuzu's global manufacturing standards that ensure that the vehicles made here are of the same quality and reliability as anywhere in the world.

In future, it will roll out newer products that will catapult Indian customers into a new era of adventure and enterprise, while also becoming the manufacturing hub for emerging markets.

Designation: Manager

Mobile:- 7066123133

Advik Hi-tech Private Limited is a leading supplier of automotive technology components in the areas of Mobility (both two-wheelers and four-wheelers, off-highway) wherein we provide end to end engineering and technology product solutions to our customers in India as well as internationally. Advik set up its manufacturing operation in 2000, which has grown over the years to a 100 million USD company. We are well placed to serve our customers through 10 manufacturing sites in 3 countries and more than 10 development and application centers globally. Our powertrain component portfolio comprises chassis components like disc-brake systems, Combined Braking systems (CBS) also core engine components like Pumps (Oil pump & Water pump), Throttle Body, Purge valves, etc. We are Head Quartered in India & are the World leader in Oil Pumps, Water pumps, Cam Chain Tensioner, and Throttle Body Assembly. Some of our marquee customers include Ducati (Italy & Thailand), KTM (Austria & India), Triumph (UK & Thailand), and Harley Davidson (US & India), including our global supplies to all Japanese OEMs, Honda, Yamaha, Suzuki & Kawasaki as well as Indian OEMs TVS, Bajaj, Hero, Royal Enfield, Mahindra, Maruti-Suzuki etc.

ADVIK HI-TECH has positioned itself as a prominent value provider in the clean energy and new energy vehicle segment, revolutionizing the industry through innovative products such as the Battery Pack for Second Life Application, EV Chargers etc. The company's dedication to sustainability is evident in its keen interest in New Energy vehicle technologies. ADVIK HI-TECH stands out not only for its cutting-edge technologies but also for its unwavering commitment to net zero green gas emissions, aligning with global efforts to combat climate change. Through its forward-thinking initiatives, ADVIK continues to contribute significantly to the transition towards a more sustainable and eco-friendly future in the energy and transportation sectors.

With 15+ years of deep tech expertise, our patented process extracts mixed metals responsibly from e-waste and Li-ion Batteries (LiB). We prioritize sustainability through clean, zero-discharge practices, low carbon footprint, and high efficiency. Recycling LiBs and e-waste epitomizes our green commitment Products & Services on Display at Bharat Mobility Global Expo 2024 (in 80 words) – Recycling lithium-ion batteries and e-waste, extracting green metals from lithium-ion batteries and e-waste. Our services include e-waste recycling, li-ion battery recycling, extended producer responsibility, upcycling, data security, carbon footprint, compliance and consulting.

BATX ENERGIES PRIVATE LIMITED

Hall No. 2FF Stall No. 26

Email:- om.sovan@batx.in; utkarsh@batx.in

Website:- www.batxenergies.com

Contact Person: Om Sovan Das

Designation: Manager, Investor Relations

Mobile:- 7008711560

BatX Energies has established coherent R&D with green thinking as our driving force, which resulted in state-of-the-art technology proprietary and cost-effective "zero-emission-zero-waste" technology for recycling and recovering lithium, nickel, manganese, and cobalt up to 95 percent purity from Lithium Ion Batteries.

As a recycler, the company's core focus is on:

- Collection of Li-Battery scrap from the market in an efficient and cost-effective manner.
- To produce Black Mass at multiple state-of-the-art "spoke" mini facilities closer to the source of the scrap.
- Safe and easy transport of the black mass for chemical processes at their main facility in Delhi NCR where all the materials (Lithium, Cobalt, Nickel, Graphite and Manganese) are extracted.

The company aims to become a global leader in the critical battery materials supply chain with our closed loop recycling technology, thereby making the world a greener place.

Established in 1998, India's first Lithium Ion cell & Battery Pack manufacturing unit by prominent technocrats & scientists at Mohali, Punjab.

Our focus is to provide India with indigenous green energy solutions.

We have vast in-house manufacturing testing and R&D facilities to design, develop & produce Lithium Energy storage solutions & even fully customize as per client's requirements.

We produce 1-32S Battery Packs with more than 800 types. We use advanced Lithium Technology that includes BMS with SMBUS (I2C, HDQ Port) having 30 types.

Being well-equipped and efficient enough in the field of Lithium technology, we provide certified Lithium-ion batteries. Thus, ranking among the top Li-ion battery manufacturers in India. All our products are quality-driven and pass through rigorous tests to ensure their long life with ideal results. These batteries are proved to perform for more than 5 years and providing long life.

Area of Specialization: We designed Lithium Batteries for Electric Vehicle, Solar Street Light, Energy Storage System, Portable/ Medical Devices, Telecom, UPS & Inverter.

AM/NS INDIA (ARCELORMITTAL NIPPON STEEL INDIA)

Hall - 4 FF Stall No A-15

Email:- Raghavan.Venkat@amns.in

Website:- www.amns.in

Contact Person:- Raghavan Venkat

Designation:- Head Auto Sales & Marketing

Mobile:- 9819730760

AM/NS India is a joint venture between the world's leading steel companies, ArcelorMittal and Nippon Steel. Established in December 2019, post-acquisition of Essar Steel, we are an integrated flat steel manufacturer - from iron ore to ready-to-market products. With over 600 steel grades - many substituting imports, we serve an array of contemporary industries (agriculture, automotive, infrastructure, defence, energy, etc.) and contribute to an Aatmanirbhar Bharat. Our portfolio encapsulates hot rolled coils/sheets/plates, cold rolled coils/sheets, galvanized coils/sheets, pre-painted galvanized coils/sheets, pipelines, etc. We ascribe to advancement with sustainability and envision creating 'Smarter Steels, Brighter Futures.

We are passionate to revolutionize the automotive industry by empowering people to do and live more. We envision a future where vehicles are not just modes of transportation, but catalysts for a better, more fulfilling life.

1. Flat Products for OEMs & Ancillaries

- Automotive Flat Products – Hot Rolled, Cold Rolled and Galvanised Steel
- New Manufacturing Technologies - Customised offerings for Auto Ancillaries

2. Long Products

- Special Bar Quality - Alloy Wire Rods and CHQ Wire

3. Tubes

- ERW & CWE Tubes with cut to length solution - Special Tubular Products (Steering Linkage Tubes, Propeller Shaft, Telescopic Front Fork)

4. Wires

- Value added and High-end wires (IHT, DM/DH/Super Tensile, MTB)

5. Alternate Materials for Automotive Industry

- Composites - Solutions for lightweighting & enhanced weatherability

6. Advanced Technical & Service Offerings

7. New Capacities for Automotive Industry

Mobile:- 8431114264

Indian Steel Association represents 65 percent of domestic crude steel. Indian Steel Association (ISA) is the voice of India's robust and growing steel industry. The Indian Steel Industry looks at ISA to further its critical agenda of sustained growth, both in steel. The VISION of Indian Steel Association is to "work towards transforming the Indian Steel Industry as a global leader acclaimed for its Quality, Productivity and Competitiveness, with focus on health, safety and environment, along with growing thrust on innovation through Research & Development, adopting an inclusive and collective approach". The Indian Steel Association not only concentrates on primary steel manufacturers but also advocates for and encourages the growth of medium and small-scale steel-making companies in India. The Indian Steel Association (ISA) represents seven medium and small players in the industry, including JSW Special Steel Ltd., Arjas Steel, Jindal Stainless, ESL Steel Ltd. (Vedanta Group), Orissa Metalliks Pvt. Ltd., Tata Steel Long products, and Rungta Mines Limited. ISA advocates for their concerns by engaging with different ministries.

Many SAEINDIA members are leaders in the field who serve as key resources for the engineering community.

STEEL AUTHORITY OF INDIA LIMITED

Hall - 4 FF Stall No B-25

Email:- cad@ssail.in

Website:- www.sail.co.in

Contact Person:- Dr. Chinmoy Samajdar

Designation:- Chief General Manager

Mobile:- 9968605956

Steel Authority of India Limited (SAIL) is one of the largest steel-making companies in India and one of the Maharatnas of the country's Central Public Sector Enterprises.

SAIL produces iron and steel at five integrated plants and three special steel plants, located principally in the eastern and central regions of India and situated close to domestic sources of raw materials. SAIL manufactures and sells a broad range of steel products

TATA STEEL

Hall - 4 FF Stall No C-26
Email:- wpurty@tatasteel.com
Website:- www.tatasteel.com
Contact Person:- Mr. Wilson Purty
Mobile:- 83358 40111

Tata Steel was established in India as Asia's first integrated private steel company in 1907. With this, we also developed India's first industrial city at Jamshedpur. Today, we are among the leading global steel companies. Our annual crude steel capacity across Indian operations is nearly 21.6 MnTPA. We possess and operate captive mines that help us maintain cost- competitiveness and production efficiencies through an uninterrupted supply of raw material. This is how we ensure that we remain the lowest cost producer of steel in Asia. Tata Steel has announced its major sustainability objective of Net Zero Carbon by 2045.

The Indian product portfolio is divided into four segments – Automotive and Special Products; Industrial Products, Projects and Exports; Branded Products and Retail; and Services and Solutions. The Company supplies hot-rolled, cold-rolled, galvanised, branded solution offerings and more.

The Government of Assam, in its drive to enhance investment and industrialization, is also focusing on transport logistics and mobility. By improving infrastructure, such as roadways, railways, and waterways, the government aims to facilitate better connectivity and efficient logistics. This includes the development of various bridges, roads and the expansion of the Brahmaputra river transport. The integration of these transport networks is crucial for the seamless movement of goods, bolstering industries like tea, petroleum, and agriculture. Additionally, policies like the Assam Industrial Investment Policy offer incentives to attract investments, further strengthening the state's commitment to developing a robust transport and industrial sector.

The Transport Department, Govt. of Assam is discharging its various functions & duties as per provision of MV Act, 1988 and rules made thereunder including issuance of Driving License after conducting competence test of Driving, road safety and awareness activities through its officials. 50 nos of Contactless Services launched for smooth service delivery besides authorizing Automobile dealers as ""Registering Authority"" for registration of Vehicles. Various steps also taken for implementation of Vehicle scrapping Policy, setting up of RVSF, ATS etc." Putting the spotlight on Assam as a platform for investments for Big Ticket investors, a holistic perspective of industrial and investment ecosystem in Assam is showcased including a snapshot of its amended investment policy, connectivity ecosystem, investment policies, logistics policy, EV policy and a special project by Department of Transport. The project is for setting up of Accredited Driver Training Centre (ADTC) with complete infrastructure of Automated Driving Testing Tracks (ADTT) in 25 Districts of the State of Assam in PPP mode with several proposed concessions/ incentives to private parties and incentives for Electric Vehicle manufacturers etc.

Designation:- India Marketing Head

About Royal Enfield:

The oldest motorcycle brand in continuous production, Royal Enfield has created beautifully crafted motorcycles since 1901. From its British roots, a manufacturing plant was established in Madras in 1955, a foothold from which Royal Enfield spearheaded the growth of India's mid-sized two-wheeler segment. Royal Enfields are engaging, uncomplicated, accessible and fun to ride; a vehicle for exploration and self-expression. It's an approach the brand calls Pure Motorcycling.

Royal Enfield's premium line-up includes the Meteor 350, Super Meteor 650 cruiser, and Shotgun 650, Interceptor 650 and Continental GT 650 twins, the all-new Himalayan adventure tourer, the Scram 411 ADV Crossover, the iconic Bullet 350 and Classic 350. Riders and a passionate community are fostered with a rich profusion of events at a local, regional and international level. Most notable are Motoverse (previously Rider Mania), an annual gathering of thousands of Royal Enfield enthusiasts in Goa, and Himalayan Odyssey; a yearly pilgrimage over some of the toughest terrain and highest mountain passes.

A division of Eicher Motors Limited, Royal Enfield operates through more than 2000 stores across all major cities and towns in India and through nearly 850 stores in more than 60 countries around the globe. Royal Enfield also has two world-class technical centres, in Bruntingthorpe, UK, and in Chennai, India. The company's two state-of-the-art production facilities are located at Oragadam and Vallam Vadagal, near Chennai. Across the world, Royal Enfield has five modern CKD assembly facilities in Nepal, Brazil, Thailand, Argentina and Colombia.

Designation:- Lead-Placement Initiatives

Mobile:- 7503777038

"The automotive industry in India is undergoing a transformation because of its sustained growth and profitability. Indian Automotive industry currently accounts for 7.1% of GDP and 49% of manufacturing output, generating 32 million direct or indirect employment. Based on the Automotive Mission Plan 2019-2026, which is a collective vision of the Government of India and the Indian Automotive Industry, the sector is expected to employ 36 million people by 2026. The Automotive Industry is known to be highly dynamic with ceaseless innovations pouring in from all over the world, changing the face of the industry as we know it.

To cope up with such a transformation, constant skilling, re-skilling and up-skilling of the existing and future workforce is extremely important. The new jobs, however, are likely to move away from traditional manufacturing and instead be added in the areas of IoT, mechatronics, robotics, 3D printing, AI, machine and deep learning, analytics, virtual collaboration, automotive design, and computational thinking.

Currently, there is a mismatch in certain areas between the skills that the industry requires and those possessed by the youth in our country. Hence, the Indian automotive sector may face a huge void if the structured reforms and initiatives are not taken to bridge the demand supply mismatch for the skilled workforce.

One of the key aspects of skilling which needs to be well understood and achieved is what level of skills, how practiced can add value to the person and the business, so as to create capital and more jobs. Developed economies of Germany, Switzerland, Japan, South Korea, etc. are shining example of this."

Contact Person:- Siddhardh Bafna Designation:- Co-Founder & Director
Mobile:- 022-22795400

BlueVerse India Private Limited', has been formed with a vision to organise the 'Vehicle Wash' Industry in India, by providing a sustainable high-quality wash to its customers, that is environment friendly, energy and time efficient and collectively results in recycling and reusing millions of litres of water each day, along with ensuring effective collection, storage and disposal of the hazardous waste generated.

India consumes more than 112 billion litres of water while generating more than 280,000 tons of unmanaged hazardous waste each year, just to wash 2 wheeler vehicles. The problem is even bigger in the 4 wheeler and other commercial vehicles.

Our IOT enabled patented machine after undergoing vigorous trials has now gone to market in mid 2023, proving an efficacy of recycling and reusing more than 98% of the water used in the process - reducing the overall water drawing & consumption by more than 95%.

A dark day in February 2005 left the royal family of Jodhpur on tenterhooks. HH Maharaja Gaj Singh's son, Shivraj Singh, an avid polo player, fell of his horse during a polo match and sustained severe head injuries that had him in a coma for months and in a wheelchair for years. It was a taxing time for him and his family.

Shivraj's indomitable spirit coupled with the care and support of his family, turned this seemingly dark situation in to that of hope. In all this, Shivraj had a special advantage. His family was able to provide him with timely brain trauma care, excellent rehabilitation facilities, and the expertise of dedicated and capable therapists. This carefully co-ordinated prognosis, professional care, and rehabilitation helped him on his long and arduous journey toward a remarkable recovery.
